

# FEDERAL AND STATE POSTERS

**This area is reserved for posters that are required by Federal and State agencies to inform employees of their legal rights. We post these notices not only because it is the legal thing to do but also the right thing to do. Questions about any of these workplace rules are welcomed by your manager or the HR Manager.**

**It is even more important for you to know that we are also committed to good communications, fair treatment and a work environment with positive employer-employee relations.**

**We work to develop an atmosphere of trust, respect and cooperation so that any problems that arise can be worked out best through frank discussion to resolve employee issues or concerns without the interference from an outside third party. You should let a manager know when we fail in that goal. You are also encouraged to freely discuss work related problems with the Management Team and HR Manager.**
